

Poslech 3/1

Could you tell me when your last period was?

Do you have a regular cycle?

How long do your periods last?

Are they painful?

Are your periods quite light, average or heavy?

Are you using a lot of pads?

When did you have your last smear test?

Do you remember the result of it?

Do you know how often you ought to be coming for a smear test?

Do you have any pain or swelling in your breast?
